DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed April 15, 2003 is acknowledged. Current pending claims are 1-4, 6-12 and 16-19. Claims 5 and 13-15 are cancelled. Claims 1, 6, 9, 16 and 19 are amended.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 3. Claims 6-8 and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by NAKABAYASHI et al (US 6,379,017).
- 4. NAKABAYASHI discloses a housing or light pipe (light guide member 3, figs.12,11-13) comprising an optically transparent volume or transparent member (col.8,lines 35-38) having a first refractive index (n=1.5, col.8, lines 54 & 61); an optical entry point defined on a side surface adjacent light source (1); an optical transit point (point of internal reflection on 31-fig.3) defined within the optically transparent volume (3); first and second pockets (31-figs.2,3,11-13) formed in the optically transparent

• Application/Control Number: 09/992,320

Art Unit: 2875

volume (3); an optical exit point (in figs.3-4, it would be at least any point by the bottom surface through which light exits); wherein the first pocket (any left-side slits 31 closer to the light source 1) defines a first 3-D negative object (fig.3) within the optically transparent volume (3,n) having a second refractive index (n1=1, col.8, line 61) substantially less than the first refractive index (n=1.5 or 1.42); wherein the first and second pockets (31) are substantially encased (figs.3,11) by the optically transparent volume (3,n); wherein the first pocket (left-side slit 31) is shaped to reflect a beam of light passing through the optical entry point (near 1) and incident upon the first pocket (left-side slit 31) to the optical transit point (fig.3); where in the second pocket (any 2nd to right-side position slits 31 away from light source 1) defines a first 3-D negative object (fig.3) within the optically transparent volume (3,n) having a third refractive index (n2=1, col.8, line 61) substantially less than the first refractive index (n=1.5 or 1.42); wherein the first and second pockets (31) are substantially encased (figs. 3, 11) by the optically transparent volume (3,n); wherein the second pockets are shaped to totally internally reflect a beam of light from the first pocket passing through the optical transit point and incident upon the second pocket to the optical exit point (col.9, lines 26-31); wherein the first and second pockets are filled with air (col.8, lines 47-49); wherein the second and third refractive indices are substantially unity (n1=n2=1; col.8, line 61).

Allowable Subject Matter

5. Claims 1-4, 9-12 and 16-18 are allowed.

Application/Control Number: 09/992,320

Art Unit: 2875

R spons to Arguments

6. Applicant's amendment with arguments, filed April 15, 2003, with respect to the rejection(s)of claim(s) 6-8 and 19 under SAKAKIBARA (US 4,625,262) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

However, upon further consideration, a new ground(s) of rejection is made in view of NAKABAYASHI et al (US 6,379,017).

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alan Cariaso whose telephone number is (703) 308-1952. The examiner can normally be reached on 9-5:30 M-F.

Application/Control Number: 09/992,320

Art Unit: 2875

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on (703) 305-4939. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9318 for regular communications and (703) 872-9319 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
